

VILLAGGIO PORCH AND PATIO LIGHT REPLACEMENTS

Approved **porch light**, in polished brass only:

Progress Lighting BrassGUARD Collection Polished Brass 1-light Wall Lantern

Model # P5832-10

Found at Home Depot, and lightingdirect.com around \$55-\$65, (shop around, you may get a better deal, but this is the only approved light).

Approved **patio light**, in polished brass only:

Hampton Bay, Exterior Coach Light

model # 249897

Found at Home Depot (and others) in polished brass finish. The approximate price per fixture is \$11.

You don't have to obtain permission from the Board to replace your porch or patio light **IF** you replace it with the very **same** light that is shown above. Any variation of this light must be approved before installation!

Some owners will ask if they may purchase other lights. The answer is "no" as the point to everyone replacing their porch or patio lights is to gain conformity in the community. Unlike living in a single family home, condos cannot accommodate the many different tastes of its residents when it comes to this type of thing. Since all the buildings look alike, all the light fixtures must also look alike.
